

Troop 112 Diversity Statement

It is a fact of everyday life that we live, work, and hold friendships with people who differ by race, religion, ethnicity, color, culture, sexual orientation, etc. Troop 112 values the diversity of its members and intends that Scouting encourage respect for the diversity of humans on this planet. Towards that end, the troop strives to achieve and maintain an environment that is free from discrimination and that embraces the principles of equality, excellence, and mutual respect. We will strive to maintain the highest standards of Scouting by living the principles of the Scout Oath and Law.
